Special list November 2023

Dear Cyclamen friends,

the November weather typical for the area has us under control. IN the summer we´ll be glad we´ve had enough rain, but right now a sunny day would be very welcome.

The Cyclamen don´t care, the last Cyclamen hederifolium are still blooming an the falling leaves of the perennials and bushes mean that the leaves of the autumn-flowering Cyclamen are increasingly coming to the fore. They are now taking over the reigns in the garden and enchanting with incredibly beautiful leaf patterns and leaf shapes. The first spring Cyclamen are also beginning to turn green - or silver, depending on the variety - in shady corners in the garden. Anyone who says the garden is boring in winter has never seen Cyclamen in the garden.

Visit our nursery and choose your Cyclamen personally.

If you can´t come yourself, shipping is recommended.

Shipping days are always Monday to Wednesday - so that the plants arrive before the weekend.

Enjoy browsing!

With the publication of this list, all previous lists become invalid.

| | | | |
|-----------------|--|-----|---------|
| Cyclamen | alpinum (früh C. trochoptheranthum) flowers pink, petals mostly twisted, leaves small, roun, dark green with silvergrey markings. | F | 7,00 € |
